

# TRUCK WEEK 2021

We are glad to confirm that Padoan will be part of Work Truck Week 2021.

The virtual show, hosted by NTEA, will be live from **8th to 12th March 2021** (Click here to visit our area).

Padoan will show its wide range of hydraulic tanks / reservoirs specifically designed according to technical requirements for North American hydraulic applications on work trucks and commercial vehicles.

Why Padoan has a groundbreaking vision?

Discover it by registering for free with our promo code **WTW172916** (Click on **WTW21** logo to enter the registration area)

The event is a great opportunity to discuss about your goals and technical requirements which can be met by Padoan's hydraulic tanks/reservoirs.

As usual, we remain at your disposal at anytime to find the best solution for your mobile hydraulic application.

Do not hesitate to contact us for private a private meeting.

- Print a receipt
- Receive a confirmation
- Login information for the WTW21 Planner

## About this event

Work Truck Week 2021 (WTW21), which takes place online only March 8–12, 2021, is a reimagined way to connect the commercial vehicle community and provide the product news, market trends and operational insights you've come to expect from North America's largest work truck event. WTW21 offers access to the latest information on work trucks, equipment and other new products; exclusive updates from leading chassis manufacturers; analysis of relevant economic and market trends; new sustainable vehicles and technology; opportunities to connect with industry-leading manufacturers and suppliers.

With respect to the confidentiality of OEM exhibitor information shared during WTW21, in agreement with the presenting chassis manufacturers, OEM registrants are requested not to attend competitor sessions.
